To do so, contact PCN.Support@onsemi.com .
Change Category	
Category	Type of Change
Bare Die	New / change of backside metallization, New / change of frontside metallization
Process - Assembly	Change in leadframe dimensions
Description and Purpose: FPCN24928Z was previously released to qualify Schottky Metallization Change And Lead Frame Modification for SOD 123 FL Package. This Update Notification is to inform customers that the Orderable Part Number (OPN) for NRVB130LSFT1G will be changed to the new part number listed in the List of Affected Parts. There is no technical difference or qualification; only the part number is different.	
Reason / Motivation for Change:	Quality Improvement
Anticipated impact on fit, form, function, reliability, product safety or manufacturability:	The device has been qualified and validated based on the same Product Specification. The device has successfully passed the qualification tests. Potential impacts can be identified, but due to testing performed by onsemi in relation to the PCN, associated risks are verified and excluded. No anticipated impacts.
