

Title of Change:	Transfer of Automotive Assembly and Test operations of DPAK packaged products to On Semiconductor Vietnam (OSV).
Proposed Changed Material First Ship Date:	10 January 2018 <i>or earlier upon customer approval</i>
Current Material Last Order Date:	1 November 2017 Orders received after the Current Material Last Order Date expiration are to be considered as orders for new changed material as described in this PCN. Orders for current (unchanged) material after this date will be per mutual agreement and current material inventory availability.
Current Material Last Delivery Date:	31 December 2017 The Current Material Last Delivery Date may be subject to change based on build and depletion of the current (unchanged) material inventory.
Product Category:	Active components – Discrete components
Contact information	Contact your local ON Semiconductor Sales Office or <Phuong.Hoang@onsemi.com>
Samples	Contact your local ON Semiconductor Sales Office to place sample order. Sample requests are to be submitted no later than 45 days after publication of this change notification.
Sample Availability Date:	1 July 2017
PPAP Availability Date:	31 July 2017
Additional Reliability Data	Contact your local ON Semiconductor Sales Office or < cheanching.sim@onsemi.com >.
Type of Notification	This is a Final Product/Process Change Notification (FPCN) sent to customers. FPCNs are issued 6 months prior to implementation of the change or earlier upon customer approval. ON Semiconductor will consider this proposed change and its conditions acceptable, unless an inquiry is made in writing within 45 days of delivery of this notice. To do so, contact < PCN.Support@onsemi.com >.
Change Category	Type of Change
Process – Assembly	Move of all or part of assembly to a different location/site/subcontractor.
Process – Assembly	Change of product marking.
Test Flow	Move of all or part of electrical wafer test and/or final test to a different location/site/subcontractor.
Equipment	Production from a new equipment/tool which uses the same basic technology (replacement equipment or extension of existing equipment pool) without change of process.
Description and Purpose: This Final Notification announces the transfer of Assembly and Test of DPAK packaged products from ON Semiconductor Malaysia (SBN) to ON Semiconductor Vietnam (OSV). Upon completion of this transfer, these specified products will be sourced solely from OSV Vietnam location using the same Bill of Material and will no longer be available from SBN. ON Semiconductor Vietnam (OSV) is qualified site for DPAK Standard discrete packaged products and is ISO TS16949 certified. Products sourced from OSV have been qualified to Automotive requirements and continue remain as Pb-free, Halide free and RoHS compliant.	
Reason / Motivation for Change:	• Change benefits for customer(s): ○ Unconstrained Automotive Sourcing; Mfg floor space for future expansion ○ Sustained TS16949 Certification with the Same BOM / Equipment / Processes ○ Allow for increased support for Seremban packages that are currently constrained ○ OSV has been audited to VDA6.3 • Risks for delayed conversion: ○ No Seremban supply after December 31st, 2017 ○ Limited ability to support bridge build availability.

Anticipated impact on fit, form, function, reliability, product safety or manufacturability

The device has been qualified and validated based on the same Product Specification. The device has successfully passed the qualification tests. Potential impacts can be identified, but due to testing performed by ON Semiconductor in relation to the PCN, associated risks are verified and excluded.

No anticipated impacts.

Sites Affected:

☐ All site(s)
 ☐ not applicable
 ☒ ON Semiconductor site(s):
 ON Seremban, Malaysia
 ON Dong Nai Province, Vietnam

Marking of Parts/Traceability of Change:

Product from ON Semiconductor Vietnam (OSV) will be marked with site code "VN" prior to the date code while the Seremban device does not have site code marking.
