Description and Purpose: <p>On Semiconductor acquired Fairchild Semiconductor on September 19th, 2016. As part of the integration, it is necessary to change some of the Fairchild orderable part numbers to meet ON Semiconductor's system requirements. Since the product management systems do not have the ability to manage part nomenclature that utilizes an underscore (_), the underscore (_) in the Fairchild part numbers will be changed to a dash (-).</p> <p>The orderable part numbers will change as following example:</p> <table border="1" style="width: 100%;"> <thead> <tr> <th>Current Legacy Fairchild Part Number</th> <th>New Part Number (starting October 30th, 2017)</th> </tr> </thead> <tbody> <tr> <td>FCA47N60F_SN00171</td> <td>FCA47N60F-SN00171</td> </tr> </tbody> </table> <p>This change will be effective at system integration, which is currently scheduled for Monday, October 30th, 2017. Until that time, customers must continue to order the current part numbers as they do today, through the Fairchild ordering system. More information regarding the October 30th system integration will be provided to customers beginning in July. If customers have questions regarding the system integration please email the questions to Fairchild_questions@onsemi.com</p> <p>ON Semiconductor will be modifying all datasheets associated with the former Fairchild products to incorporate the new orderable part number changes by the effective date. All former Fairchild Orderable Part Numbers containing an "underscore" are affected.</p>				Current Legacy Fairchild Part Number	New Part Number (starting October 30 th , 2017)	FCA47N60F_SN00171	FCA47N60F-SN00171
Current Legacy Fairchild Part Number	New Part Number (starting October 30 th , 2017)						
FCA47N60F_SN00171	FCA47N60F-SN00171						
List of Affected Part(s): <p>This is a General Announcement. General Announcements do not contain a specific list of affected devices. ON Semiconductor uses these announcements when all or no devices are affected.</p>
