

DESIGN/PROCESS CHANGE NOTIFICATION

This is to inform you that a change is being made to the following products.

This is a minor change that has no impact on product quality, reliability, electrical or mechanical performance. Affected products will remain fully compliant to all published specifications. Notification is being made for informational purposes only and there is no approval required. Products incorporating this change may be shipped interchangeably with existing unchanged products.

Please contact your local Customer Quality Engineer if you have any questions regarding this notification. Alternatively, you may send an email request for information to PCNSupport@fairchildsemi.com.

Implementation of change:

Expected First Shipment Date for Changed Product : Dec. 19, 2011

Expected First Date Code of Changed Product : 1152

Last Date for Shipment of Unchanged Product : Dec. 19, 2011

Description of Change (From) :

Tubes packed into inner box with bubble sheet.

Description of Change (To) :

Tubes packed into sealed film shielding bag with VCIs (Volatile Corrosion Inhibitors).

Reason for Change:

Enhance DBC protection from oxidation. The VCIs prevents corrosion by vaporizing at room temperature and forming a protective microscopic layer on the metal surfaces, and it would volatilized after few minutes when exposing under ambient temperature and moisture, and there is no change to the form, fit and function of the product.
