Change Category:	Availability of T1 taping option device	
Change Sub-Category(s):	Availability of T1 taping option device	
Sites Affected:		
onsemi Sites	External Foundry/Subcon Sites	
None	None	
Description and Purpose:		
<p>onsemi is notifying customer that the T1 taping option device on MM5Z24VT5G and MM5Z16VT5G are available. The T1 taping option devices have same form, fit, and function of product as existing T5 taping option devices. T1 option, has an empty pocket on the tape compared to T5 option. With this recommendation we are able help to simplify customer internal qualification process.</p> <p>Please refer to below for the differences between T1 and T5 taping option.</p> <p>The T1 taping version OPNs are MM5Z4VT1G and MM5Z16VT1G.</p> <div><div><p>Option 5</p><p>"T5" Cathode Lead Toward Sprocket Hole (8k Reel)</p></div><div></div><div><p>Option 1</p><p>"T1" Cathode Lead Toward Sprocket Hole (3k Reel)</p></div></div>		
List of Affected Standard Parts:		
<p>Note: Only the standard (off the shelf) part numbers are listed in the parts list. Any custom parts affected by this PCN are shown in the customer specific PCN addendum in the PCN email notification, or on the PCN Customized Portal.</p>
